Webinar - Leveraging LinkedIn Job Search Tools

Your LinkedIn profile is the first step to ensuring you are using LinkedIn to its fullest extent. Unfortunately, most people only rate their profile as "fair." If you rated your resume as "fair" what would you do? Would you expect a call from recruiters? Do you know how recruiters use LinkedIn to find you? Do you know how you can use LinkedIn to find the contacts you want and need? Do you know how to rapidly add 100 contacts? Finally, do you know the biggest item missing from 90% of all LinkedIn profiles? Just fixing this one problem can change, literally overnight, the number of calls you will receive once someone views your profile. Our last webinar was over-subscribed. We will be scheduling another webinar in the near future for this popular program.
